

TABLE OF CONTENTS

The Mathematical Work of Miron Nicolescu	
C. Foiaş	1
Fixed Point Theorems for Sequences of Mappings	
G. Isac	13
Some Almost Periodicity Criteria for Ordinary Differential Equations	
C. Corduneanu	21
On Nonlinear Difference Approximations to Nonlinear Functional Differential Equations	
Lance D. Drager and William Layton	45
Solutions of Abstract Differential Equations with Minimal Uniform Norm	
S. Zaidman	67
Positivity and Boundedness of Solutions of Volterra Integro-Differential Equations	
M. ^e Rama Mohana Rao and P. Srinivas	71
Parabolic Variational Inequalities with Strong Nonlinearities	
Dan Pascali	83
Solutions Périodiques d'un Système D'Équations Différentielles	
Ilie Popescu	99
Dilation Theory Applied to Linear Transport	
V. Protopopescu	107

Improper Immersions in a Lorentzian Manifold Admitting
a Sasakian Structure

Radu Roşca 117

Greedy and Optimal Paths in a Weighted Graph Without Circuits

I. Drăgan 129

Miscellanea 150
